■ Date of Birth: Aug 29, 1998 (Age: 26)

SUMMARY

I am a web developer and open-source enthusiast with strong coding skills and experience in remote pair programming. Proficient in JavaScript, HTML5, CSS3, Bootstrap, JQuery, and Git. I have a strong background in ICT and digital forensics, with a proven ability to quickly learn and adapt to new technologies. Recently expanded my expertise into internal auditing and warehouse auditing, gaining valuable experience in compliance, inventory management, and process control.

SKILLS

Technical Skills: JavaScript, Styled Components, HTML5, SQL, CSS3, Bootstrap Automated Testing: Unit Tests, Integrated Tests Tools & Methods: Git, GitHub, Netlify, Mobile/Responsive Development, Chrome Dev Tools Professional: Remote Pair-Programming, Teamwork, Mentoring, Research Soft Skills: Good written/verbal communication, MS Word, Excel, PowerPoint, SQL, customer service skills, attention to detail, good time management

Creative & Artistic Skills: Pencil Art – skilled in freehand sketching and realistic portrait drawing using graphite and charcoal. Mural Art – experienced in designing and painting large-scale wall murals for indoor and outdoor spaces, combining creativity with spatial planning. Artistic Vision – able to blend artistic creativity with technical projects, enhancing UI/UX design and visual storytelling in digital products.

EDUCATION

Kogi State University Bachelor of Science in Mathematical Science — Aug 2017 – Mar 2021 - Acquired a strong understanding of Mathematics, Computer Technology, Data Structures, and Algorithms - Completed a final project on Ebola analysis using software tools, which deepened interest in software and web design

EXPERIENCE

Foodco Nigeria Ltd, Ibadan

Internal Auditor / Warehouse Auditor — Mar 2024 – Present

- Conduct internal audits to ensure compliance with company policies, procedures, and financial regulations.
- Monitor warehouse operations, including inventory control, stock verification, and reconciliations.
- Inspect warehouse records, goods receipts, and dispatch notes to identify discrepancies.
- Assist in risk assessments and recommend process improvements to strengthen internal controls.
- Ensure accuracy of financial and operational reports from warehouse activities.
- Support management by preparing detailed audit findings and reports for decision-making.
- Collaborate with warehouse and finance teams to enhance efficiency and minimize losses.

Swiftdatalink

Frontend Developer / IT Support — Aug 2023 – 2024

- Developed and deployed responsive user interface components using HTML, CSS, and JavaScript.
- Provided comprehensive IT technical support services, aiding global management teams in maintaining hardware, software, and networks for 200+ users.
- Managed user accounts on Windows Server, Lotus Notes Server, and Contour systems.
- Installed and configured desktops, network printers, and peripheral devices across multiple offices.
- Conducted system troubleshooting and ensured effective resolutions for hardware/software issues.
- Performed OS installations, network setups, and PC configurations for Dell and HP systems.

Solotech Global Solution System Ltd (Local), Rivers State

Frontend Developer — Aug 2021 – Mar 2022

- Designed and implemented highly responsive user interface components using JavaScript.
- Collaborated with developers to discuss UI/UX improvements and reviewed application requirements.
- Built frontend architecture to support scalable and user-friendly applications.

PERSONAL PROJECTS

- Frontend for Swiftdatalink:

<https://Swiftdatalink.com>

- Budget App:

<https://michaelpeter9695.github.io/budget/>

- Currently enrolled in ALX West Africa Software Engineering Program
